

Job Details

Air Conditioning Engineer – Jersey

Amalgamated Facilities Management Ltd is AFM are recruiting an Air Conditioning Engineer to join our busy Mechanical Team. The individual will conduct various tasks including reactive tasks, fault finding and diagnostics on all forms of air conditioning systems, installation and planned maintenance. Applicants must be electrically qualified and have a FGAS qualification or equivalent.

Further support may be required by the Team on activities such as ventilation ducting, pumps, motors, controls and refrigeration.

The successful candidate must have the ability to self-risk assess and notify any concerns, have a proactive approach to conducting works and have strong communication skills to both internal and external Clients.

Key Responsibilities:

- Fault finding, diagnostics and repairs on various forms of CCU's, comfort air conditioning and ventilation systems
- Installation works associated with air conditioning and ventilation systems
- Support for other Mechanical Services activities; ventilation ducting, pumps, motors, controls and refrigeration as and when required
- Planned preventative maintenance works in conjunction with the maintenance delivery team
- Provision of site information/asset verification as required
- Liaising with third party contractors and coordinating minor works when necessary
- Assist co-workers when required
- Compliance with legislation

Additional info for this role:

- This is a full time position
- A driving licence is essential.
- Out of hours work/emergency call out attendance will be required.
- Due to the nature of our working environment the successful applicant will be required to undertake a full police disclosure and pre-employment screening

If you would like to apply for this role please forward your CV to the HR Team, Amalgamated Facilities Management Ltd, CTV House, La Pouquelaye, St Helier, Jersey, JE2 3TP or by email to: hr@amalgamatedfm.com
