

Maintenance Division Vacancy - Jersey

Maintenance Engineer

Amalgamated Facilities Management Ltd is currently recruiting an experienced **Maintenance Engineer** to join our busy Maintenance Division.

The role will predominately involve working in commercial and industrial environments; however there is also an element of domestic works.

Covering a wide range of building systems, daily activities will include carrying out the scheduled PPM (planned preventative maintenance) works to mechanical & electrical equipment & building fabric (air conditioning, ventilation, pumps, controls, lighting, filter replacement and general maintenance tasks etc.). In addition the engineers will be required to assist with reactive tasks as and when required.

This role would suit people with mechanical or electrical experience or people from a similar background who are interested in making a career change. Appropriate training would be provided to suitable candidates.

Qualifications

Essential

- Driving Licence

Desirable

- Appropriate electrical qualifications to 18th Edition or equivalent

Additional info for this role:

- This is a full time position.
- Occasional call out works will be required.
- Due to the nature of the work the successful applicant will be required to undertake a full police disclosure.
