

Maintenance Engineer - Guernsey

Amalgamated Facilities Management Ltd is currently recruiting a **Maintenance Engineer** to join our busy team.

Covering a wide range of building systems, daily activities will include carrying out the scheduled PPM (planned preventative maintenance) works to mechanical & electrical equipment & building fabric (air conditioning, ventilation, pumps, controls, lighting, filter replacement and general maintenance tasks etc.). In addition the engineer will be required to assist with reactive tasks as and when required.

Key Responsibilities:

- Assisting in the delivery of Planned Maintenance across all disciplines
- Read and interpret specifications, product data sheets and health & safety documentation.
- Complete all statutory and non-statutory paperwork (training will be provided).
- Interpret the health & safety requirements to ensure the task is completed successfully.
- Undertake any other tasks as requested by the company from time to time to ensure the successful trading of the business.

This role would suit people with a mechanical or electrical background or people who are interested in making a career change. Appropriate training would be provided to suitable candidates.

Additional info for this role:

- This is a full time position
- A driving licence is essential
- The successful applicant will be required to undertake a full police disclosure

If you would like to find out more information about this role, please contact our Human Resources Team on 01481 252111 or forward your CV to: hr@amalgamatedfm.com.
